ENGINEERS AUSTRALIA

ASSET MANAGEMENT COUNCIL
Your Hosts: Sydney Chapter

John Hardwick is the 2008 Sydney Chapter Chair, a member of the AMC Board and the 2009 Chairman (elect). John has over 25 years experience in electrical utilities and led EnergyAustralia’s move into maintenance and asset management. A regular participant in ICOMS since 2001, John brings a unique ability to bring both the technical and the people factors together in building a successful asset management based implementation.

Gary Winsor is the Sydney Chapter Secretary, and has over 28 years experience with maintenance and asset management in rail and electrical utilities. Gary has participated in ICOMS since his first paper in 1998 and brings to the conference a wealth of experience in maintenance management, reliability and asset modeling.

Danny Azavedo is the International Chapter Chair and the Treasurer of the Sydney Chapter. Danny has been a member of AMC/MESA since it was formed, a member of the Sydney ICOMS 2004 conference team, and brings with him 35 years of local and overseas experience in the manufacturing, heavy construction and water utilities. Danny will be our host for our overseas visitors to the conference.

John, Gary and Danny are supported on the local Chapter ICOMS team by AMC members Terry Howard, Robert Sloan, Steve Buncombe and Dan Vultureanu. We look forward to meeting you in Sydney in 2009.

ABOUT ICOMS ASSET MANAGEMENT CONFERENCE

The ICOMS conference attracts around 350 key National and International professionals in Asset Management and Maintenance Management along with corporate decision-makers from organisations in both the private and public sectors. The conference has a unique attendance grouping including academics, Maintenance Practitioners, Asset Managers and General Managers of asset intensive organisations as well as providers of specialist engineering consulting services.

Conference Objective

Despite the current economic climate Australia has a number of asset replacement challenges as aged assets approach retirement, and demand for services is sustained or in some cases increases. This combined with the financial constraints being experienced provides us all with challenges about how we can sustain our businesses, and our assets, to continue to achieve the required delivery of services.

The assets which enable our businesses to deliver the required services have long lifecycles, longer than the economic boom/bust cycle, longer than the tenure on a CEO or Board member, and certainly longer than a political term.

ICOMS TECHNICAL TEAM

Joanna Sikorska, CASWA (Chair)
Deryk Anderson, MMS
Steve Buncombe, Energy Australia
Terry Howard, Railcorp
Gary Winsor, Energy Australia

Papers

Reliability Assessment Of Reciprocating Machine Piston Rod Using Nonlinear Deformation Model With Initial Imperfection, Authors: A Almasi
Presenter: Amin Almasi, Tecnicas Reunidas SA, Spain

Measuring Sustainable Change, Authors: DA Army
Presenter: David Army, Strategic Asset Management Inc., USA

Contribution Of Emotional Intelligence (EQ) To Asset Management Decisions, Authors: D Azavedo
Presenter: Danny Azavedo, Sydney Water, Australia

Railcorp Track Possession Process And Its Application As A Critical Resource In Rail Infrastructure Maintenance, Authors: R Beasley
Presenter: Ray Beasley, Railcorp

The Use Of An Asset Productivity Index In Benchmarking The Performance Of Productive Assets, Authors: S Berquist
Presenter: Steve Berquist, Fluor Australia Pty Ltd

The Application of Combined Predictive Maintenance Tools to Achieve Improved Asset Performance, Author, Steve Berquist
Presenter: Steve Berquist

What Is Good And Not So Good About PAS 55, Authors: R Byrne
Presenter: Roger Byrne, Roger Byrne & Associates

Maintenance Scheduling Using Primavera Resource Levelling, Authors: LR Cameron
Presenter: Lindsay Cameron

Optimised Life-Cycle Planning For Water Industry Assets, Authors: D Chakraborty & Rt Benerji
Presenter: Debajyoti Chakraborty, , United Kingdom

Component Replacement Optimization: A Case Study In Component Replacement Of Mechanical Pumping Units, Authors: T Darmawan
Presenter: Toni Darmawan, Chevron Pacific Indonesia, INDONESIA

Activating Improvement Across The Asset Management Life Cycle, Authors: S Doran
Presenter: Stephen Doran, Infrastream Pty Ltd

Bombardier Orbita - Predictive Asset Management, Authors: E Dubé
Presenter: Eric Dube, Bombardier Transportation

The Role of Asset Management in Enterprise Strategy Success, Authors, R Dwight & K El-Akruti
Presenter: Richard Dwight

Evaluation Of The Efficacy Of Industrial Information Management, Authors: R Dwight & R Evans
Presenter: Richard Dwight, University of Wollongong

Shutdown Planning In Remote Sites, Authors: G Gan
Presenter: Gerard Gan

Value Maximisation From Information Technology In Asset Management – A Cultural Study, Authors: A Haider
Presenter: Abrar Haider, University of South Australia

Performance Indicators For Process Plant, Authors: NA Hastings & MR Hodkiewicz
Presenter: Nick Hastings, Albany Interactive Pty Ltd

Design Refinement Through Knowledge Feedback, Authors: JA Healy
Presenter: JA Healy, JAHCon Physical Asset Management P/L

Presenter: David Hook, KTH - Royal Institute of Technology, Sweden

Asset Management As A “Business Motivation” For Investment, Authors: G Hopkins
Presenter: Glenn Hopkins, Logica

Asset Management Of The Freon Units On Board The Collins Class Submarine, Authors: S Horvath
Presenter: Stephen Horvath, ASC Pty Ltd

Application Of Fire Risk Management Concept To Manage Assets, Authors: MC Hui
Presenter: M.C. Hui

Asset Management And Regulation At Energy Safe Victoria, Authors: A Jones
Presenter: Andrew Jones, Energy Safe Victoria

Sydney Water’s Journey In Asset Management, Authors: G Kane & W Eyles
Presenter: Greg Kane, Sydney Water Corporation, Australia

Why The Financial Crisis Makes It An Imperative For Organisations To Focus On Values, Authors: J Ledwidge
Presenter: Jonathan Ledwidge, THAPartners, United Kingdom

Experience In The Assessment & Certification Of Organisations In Asset Management, Authors: S Lemon & A Sharp
Presenter: Stephen Lemon, AMCL Pty Ltd
Papers Continued

An Integrated Approach To Operations And Maintenance Using Process And Maintenance Improvement Program (PMIP), Authors: N Marathe & B Lee
Presenter: Nandu Marathe, Sydney Water

A Practical Approach To The Preventive Maintenance (PM) Reviews And Its Implementation In The Computerised Maintenance Management System Within Sydney Water, Authors: N Marathe & G Orgill
Presenter: Nandu Marathe, Sydney Water

System Support Engineering: The Foundation Knowledge For Performance Based Contracting, Authors: JPT Mo
Presenter: John Mo, RMIT University

Fundamentals of an Electrical Maintenance Strategy, Author, S Mozar
Presenter: Stefan Mozar

Incident and Hazard Reporting a Vital Process Confounded, Author, A Musry
Presenter: Alan Musry

A Capability Maturity Model For Data Acquisition And Utilisation, Authors: G Murphy & A Chang
Presenter: Glen Murphy, CIEAM

Building Bridges And Solving Rubiks Cubes: Tribalism In Engineering And Technical Environments, Authors: G Murphy
Presenter: Glen Murphy, CIEAM

Application Of Data Envelopment Analysis In Evaluation Of Maintenance Unit Efficiency, Authors: P Niknazar
Presenter: Pooria Niknazar

The Impact Of Predictive Maintenance On Equipment Reliability, Authors: R Overman
Presenter: Rich Overman, CORE Principles, LLC, USA

Prioritizing Your Reliability And Maintenance Analyses, Authors: R Overman
Presenter: Rich Overman, CORE Principles, LLC, USA

Cultural Realignment In Maintenance Workforce Re-Engineering, Authors: R Platfoot G Bahn & P Durrant
Presenter: Robin Platfoot, Covaris Pty Ltd

Data Management In Semi-Automated Shutdown Scheduling, Authors: R Platfoot & P Milankovski
Presenter: Robin Platfoot, Covaris Pty Ltd

Optimization of Preventive Maintenance Inspection for Plant Equipment, Authors, SR Al-Na’aman & KP Ramachandran
Presenter, KP Ramachandran, Sultanate of Oman

Full-Blown SAE JA1011 Compliant Reliability Centered Maintenance (RCM) Is Only Part Of The Solution, Authors: N Regan
Presenter: Nancy Regan, The Force Inc, USA

Developing And Implementing A Sustainable Asset Management Plan For A Public Private Partnership (Case Study), Authors: K Robertson
Presenter: Ken Robertson, United Group Services

Key Performance Indicators In Maintenance Management, Authors: T Sahoo
Presenter: Trinath Sahoo, Indian Oil Corporation Ltd, India

Sydney Water Sewer Rehabilitation Decision Framework, Authors: N Schaeper
Presenter: Norbert Schaeper, Sydney Water

A Critique Of Data Collection & Analysis As Advised By RCM, Authors: DJ Sherwin
Presenter: David Sherwin

Cost-Risk Optimisation Within RCM Processes, Authors: D Smit
Presenter: David Smit, AMCL Pty Ltd

Reliability Russian Roulette – Loading The Barrel With Statistics And Pulling The Trigger On Reliability, Authors: S Turner
Presenter: Steve Turner, OMCS International

The Effect Of Human Error On Maintenance Performance In A Technology Organisation, Authors: JK Visser & AR Nortje
Presenter: Krige Visser, University of Pretoria, South Africa

ABOUT Asset Management Council

The Asset Management Council (AM Council) is the trading name for The Maintenance Engineering Society of Australia (MESA), a non-profit organisation, and a Technical Society of Engineers Australia. Our vision is to be a leading regional group providing focus for physical asset management.

Our goals include
- Involve Australian industry in support of asset management definition, models and plans
- Create and promote a continuous learning culture for its members and the community
- Engage with Australian industry to promote good asset management
- Develop, document and promote good asset management practice and science
- Share knowledge with national and international asset management bodies of renown
Workshops Friday 5 June 2009

“Hands-On” day for Asset Managers to sharpen their skills, to focus on critical, professional competence and to benchmark through the full day of workshops and networking. Each workshop is presented by a renowned asset manager and offers an opportunity to hone your skills in an interactive group of limited size. Workshops will run 9am to 4.30pm on Friday 5 June. Notes and other necessary material will be provided by the Workshop leader.

Workshop 1: Managing wastes to reduce costs and improve performance
Joel Davison, Management Consultant, Prospect Consulting
When the economy slows companies often look to cost cutting for relief; projects are terminated, equipment replacements are delayed and people are made redundant. Unfortunately these actions only provide short term relief because they usually fail to address wastes - activities that are unproductive or that fail to add value. Removing wastes from a business reduces costs and positions the business for growth when good times return. However, wastes can be hard to see, confronting to address and challenging to overcome.

The aim of this workshop is to review each of the major Lean Wastes and to discuss experiences dealing with them. Participants will be invited to explore wastes across industries and within specific businesses, to discuss the behaviors that lead to wastes, and to share successful and unsuccessful approaches to mitigating them. Each of the Lean wastes will be examined systematically with the aim of enabling participants to consolidate their learnings into successful waste investigations for implementation on return to the workplace.

Workshop 2: The Asset Management Operational Strategic Plan
S. Bradley Peterson, President & CEO, Strategic Asset Management, USA
The workshop topic will be “Creating and Implementing a Strategic Plan for Asset Management”. Plant Asset Management has become a growing trend within organizations and continues to gain momentum. This workshop will help participants better understand how to create and implement a successful plan for their organization. As well as answer any questions that may be troubling or confusing the participant in reference to developing a strategic plan for asset management.

Social Program
There will be a substantial delegate social program, to ensure the maximum opportunity to network with colleagues.

Monday: Exhibition Opening and Welcome Cocktail Reception

Wednesday: AMEA Excellence Awards and Gala Dinner, Sponsored by Transfield Services.

Thursday: Farewell drinks at the venue.

All the above events are included in full conference registration. Additional tickets may be purchased and available on the registration form.

Workshop 3: Reliability Skills for Asset Managers
David Sherwin
The workshop is intended for those using Reliability in their work as well as managers in need of an overview of the subject as applied to Asset Management. The focus is on Reliability theory necessary to find the best solutions in Assets Selection, Maintenance and Replacement. Each of the following topics is introduced in the context of its uses in the field of focus.

- Definitions, Probability and Distributions (very brief)
- Bathtub Curves for Parts and Systems
- System Reliability, Availability, Maintainability and Productiveness (Expected Mean Output under prescribed Maintenance)
- Data Collection and Analysis: Need and Methods (based on the presenter’s paper to this conference)
- Matrix Methods for Maintained Systems avoiding use of Calculus and Transforms

Participants will also be briefly introduced to the following topics as applications of the theory covered, and issued with relevant notes and papers for private study after the course.

- Life-cycle Costs or Profits from ownership of an Asset or System of Assets
- Age and Block Renewal Models
- Inspection and Continuous Condition Monitoring
- Opportunity Maintenance (wait for a failure or statutory stoppage and then catch up on the Preventative Maintenance).

Registration Information

Entitlements

Full Conference
- All Conference sessions
- A ticket to the Welcome Function, Awards Dinner, Gala Conference Dinner and Farewell Function
- Morning and Afternoon Teas
- Lunches
- Entrance to exhibition
- Proceedings USB
- Conference programme book and handouts

Workshop registration
- Workshop session for day of registration
- Workshop Notes
- Lunch, morning and afternoon teas for day of registration (where applicable)

Full Conference and Workshop
- All of the above and attendance at one workshop on Friday 5 June 2009

Day registration fees include:
- Conference sessions for day of registration
- Lunch, morning and afternoon teas for day of registration (where applicable)

Accompanying Persons fee includes:
- A ticket to the Welcome Function, Awards Dinner and Farewell Function
- Tours of Sydney Harbour, Aquarium, Centrepoint and Art Gallery
- Name Badge

Web: www.amcouncil.com.au Email: icoms@amcouncil.com.au Tel: +61 (0)3 9830 4899 Fax: +61 (0)3 9880 7511
Partner Program

Includes: Welcome Function (Monday night), Gala Dinner (Wednesday night), all tours, Monday, Tuesday, Wednesday and Thursday, and Farewell cocktail function Thursday.

Monday:

Pre Conference Tour of NSW Art Gallery and Botanic Gardens walk to Mrs Macquarie’s Chair. The Art Gallery of New South Wales is the leading museum of art in New South Wales and Sydney, and one of Australia’s foremost cultural institutions. Back to the SMC for the Cocktail reception function.

Tuesday:

A visit to the Sydney Aquarium, followed by a Cruise of Sydney Harbour with a delicious Seafood lunch. After the cruise a visit to Sydney Wildlife World, followed by free shopping time.

Sydney Aquarium is a must-see, and one of the best things to do in Sydney. Walk under water and explore Australia’s rich and diverse aquatic life and habitats.

Sydney Harbour Cruise aboard Sydney’s flagship MV Sydney 2000. Enjoy stunning harbour views a comprehensive commentary and a delicious seafood buffet lunch: S

Wednesday:

Opera House tour at Circular Quay, then to the Sydney Harbour Bridge for a view of the Harbour at Pylon Lookout. A visit to the Rocks, Susannah Place Museum and Kendall Place discovery museum.

Back to your hotel to rest up for the Gala Dinner.

Thursday:

Sydney Tower Lookout, then to the Town Hall to visit the Queen Victoria Building followed by a Darling Harbour Sightseeing Cruise. Centre Point Tower viewing deck takes you 250 metres above Sydney, commanding breathtaking views over one of the most beautiful cities in the world, including the Harbour Bridge and Opera House.

Back to the SMC for the Farewell function.

ABOUT SYDNEY, AUSTRALIA

To and From Airport

Located in Mascot NSW, Sydney Airport is approximately 8km from the central CBD. Sydney Airport is easily accessible by all modes of transport including car, train, taxi or bus.

There are rail stations located at both the International and Domestic Terminals.

Airport Link is a fast and convenient way to reach the centre of Sydney. Trains run approximately every 10 minutes and the journey into the city takes only 13 minutes. The international and domestic rail stations link directly to the City Circle which means most city destinations are within a short walk of stations.

Local Weather

Sydney’s oceanic climate means warm summers and mild winters, with a temperature range between nine and sixteen degrees Celsius in winter and up to an average peak of 26 degrees Celsius in summer. May 11-19, June 9-16 Celsius °C

Principal Sponsor

Transfield Services delivers essential services to key industries in the resources and industrial, property and infrastructure sectors. A leading global provider of asset management, operations, maintenance, and project management services, Transfield Services has more than 29,000 employees in Australia, New Zealand, the United States, the United Arab Emirates, Qatar, New Caledonia, South East Asia, India, Chile and Canada. Transfield Services Limited is publicly listed in Australia and included in the S&P/ASX 100. www.transfieldservices.com

Sponsors & Exhibitors

If you are a service or product provider, there is an excellent opportunity to raise the profile of your company to the next level by either sponsoring some of the events, or have an exhibition booth to showcase your products or services to the world of maintenance professionals.
