

The Rise and Rise of Tier 1 ERP Maintenance Systems

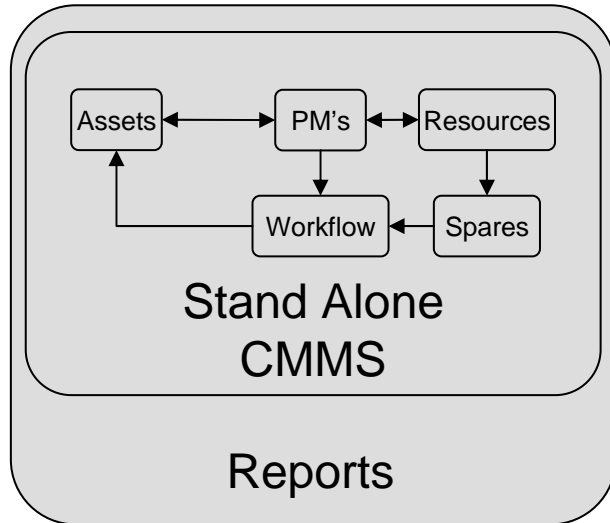

Jim Harper
Director
APMMS Pty Ltd

Success with Maintenance Strategy

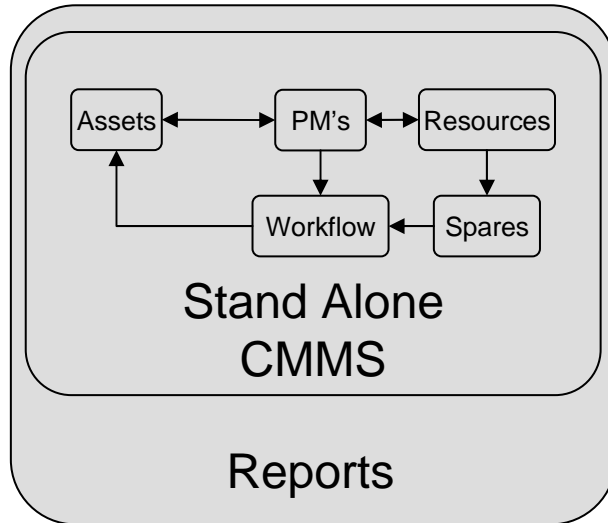

CMMS

- Comparatively cheap
- Easy to use
- Quick to implement
- Controls maintenance
- Beds in process wins
- Captures maintenance strategy
- Captures maintenance history

- Site specific
- True costs not reflected
- Lack scalability
 - Strategy
 - Maintenance IP
- Double entry of stock
- Who notices if turned off?

Disadvantages/Challenges?

- **Is my organisation large enough and ready for this type of implementation?**
- **Cost.....Benefits?**
- **Change!** **Share maintenance IP with other areas of the business!**
