

# HOW TO DEVELOP A STRATEGIC ASSET MANAGEMENT PLAN

ASSET MANAGEMENT COUNCIL

## OBJECTIVES OF THE COURSE

This seminar provides a thorough overview of how to develop a Strategic Asset Management Plan (SAMP) – an essential part of any asset management system.

By the end of this course, you will be able to:

- Identify the needed content of your SAMP
- Apply the requirements of ISO 55000 for the development of a SAMP
- Identify the requirements for Asset Management Objectives
- Identify the requirements for an Asset Management System
- Identify the requirements for the development of Asset Management Plans (AMPs)
- See how these may be applied in practice
- Understand how to apply the key ISO55000 requirement to develop a “desired balance between cost, risk and performance” within the SAMP
- Understand how to engage non asset management people in the asset management journey defined in the SAMP

## LINK TO THE ASSET MANAGEMENT PLAN SEMINAR

This SAMP Seminar supports the AM Plans Seminar which follows from the SAMP seminar. This allows participants to complete the full suite of ISO required artefacts/documents within two days, in the same order as the ISO5001 standard intended.

The AMP Seminar is conducted on the day after the SAMP Seminar and can be booked separately.

## YOUR TRAINERS

Your trainers represent the best asset management experience in Australia. All Seminar trainers have the following attributes:

- Experienced asset management practitioners having worked in numerous Asset Management roles for over 20 years
- Have participated in the development of the ISO5500X suite of standards
- Have developed SAMPs and AMPs for organisations and conducted training of engineering, financial and management related staff in asset management.

## WHO SHOULD ATTEND

- Anyone working in, or who wants to work with a certified ISO55001 asset management system.
- Anyone who requires an introduction to the key asset management artefacts and documents that support ISO55001.
- Anyone who wishes to improve the management of assets within their organisation.

## About the Asset Management Council

As an internationally recognized organisation at the forefront of asset management knowledge and development, the Asset Management Council provides independent information and guidance on asset management across a multitude of industries and professional roles, both in Australia and overseas.

The Asset Management Council is a fully industry supported body and is considered by many to be a ‘thought leader’ in asset management, both nationally and internationally.

The Asset Management Council is a not-for-profit organization, a Technical Society of Engineers Australia and a founding member of both the Global Forum on Maintenance and Asset Management (GFMAM) and the World Partners in Asset Management (WPiAM). The Asset Management Council’s objectives are to:

- Strengthen and enhance the asset management, maintenance engineering and financial capabilities of asset management practitioners and organisations
- Promote excellence in the practice of asset management and maintenance engineering
- Promote practitioner participation in and contribution to activities of their Company
- Facilitate linkages at national and international levels
- Facilitate active participation from other disciplines and professions
- Encourage research and increase the asset management body of knowledge

## Your Course Materials

In addition to your Strategic Asset Management Plans Workbook receive a complimentary copy of the AM Council’s Companion Guide to ISO 55001, providing everything an asset management practitioner needs to know about the requirements in ISO 55001.

## Registration and Pricing

The Asset Management Plans Seminar costs \$836 for members and \$1,001 for non-members.
