

# AMC – Sydney Chapter: Ask a Friend

**Context**

It's generally recognised that workforce ownership is a key contributor to successful asset project delivery outcomes

**Question**

How does an organisation that covers a large regional footprint with complex assets (e.g., Sydney Water etc) best engage the large asset delivery workforce to ensure ownership of the desired outcomes?

**Potential considerations**

- Clarity in outcomes
- Training workshops
- Roles and responsibilities
- Importance of contributions
- Recognition and rewards
- Communications strategies
- Leadership
