

# Asset Management in Action Webinar Series

The Asset Management Council is pleased to present this series showcasing projects from our Excellence Awards finalists during AMPEAK19

## BOLT ASSET MANAGEMENT HACKATHON

The BOLT Asset Management Hackathon was created to provide a safe 'free-to-fail' space for collaborative problem solving on asset management challenges.

In late 2018, nine interdisciplinary teams participated across three events where they collaborated on real world challenges faced by asset managers.

Teams defined a problem and worked together through a structured and facilitated process to develop a solution. The teams then prepared and presented a pitch for their concept to the group.

Participants gained skills in collaborative problem solving, appreciated the value of diversity, improved their confidence and learned a process that they could apply in their workplace.

### Presented by:

Dr Monique Beedles is an experienced company director with over 20 years of board experience. Monique has is a Fellow of the Australian Institute of Company Directors and the author of Asset Management for Directors, published by AICD. Monique is currently a Non-Executive Director of the Asset Management Council, Queensland Division Director of the Asset Institute and an Industry Fellow in the QUT School of Management, where she earned her PhD in Strategy.

Monique established her strategy consulting practice, Teak Yew in 2004. She is a Certified Asset Management Assessor and has extensive experience with strategic asset management in industries including Mining, Rail, Ports, Utilities and Defence.
