

Asset Management in Action Webinar Series

The Asset Management Council is pleased to present this series showcasing projects from our Excellence Awards finalists during AMPEAK19

SYDNEY TRAINS MOVING BEYOND CERTIFICATION

Sydney Trains' journey towards becoming a world-class asset management organisation kicked off with the achievement of ISO55001 certification.

The immediate question the followed for this 100-plus year old public sector organisation was – what's next? How to move forward to maturity, excellence and institutionalising asset management?

Through active stakeholder engagement, structured gap analysis and collective decision making, an aligned way-forward to asset management maturity and excellence has been agreed that now forms a comprehensive action plan aimed at institutionalising asset management at an organisational scale and setting an example for complex organisations to move beyond the achievement of improvement goals.

Presented by:

Sudheer Vyas is an Asset Systems Professional in the Asset Management Division (Engineering and Maintenance) for **Sydney Trains**
