

Asset Management in Action Webinar Series

The Asset Management Council is pleased to present this series showcasing projects from our Excellence Awards finalists during AMPEAK19

SYDNEY WATER ENABLING AND OPTIMISING PROJECTS

The Asset Management Council is pleased to present this webinar series showcasing projects from our Excellence Awards finalists during AMPEAK19.

Sydney Water's Delivery Management (DM) is a strategic consortium with Lendlease and John Holland to design and deliver infrastructure projects. It has 200+ staff and 1500+ active projects.

In 2018, DM implemented a series of innovative process optimisation initiatives designed to uplift asset management performance, traversing management, operations and project delivery.

These included: development of a bespoke Management Operating System with embedded plan-do-check-act cycle at all leadership levels; development of an operating model; and significantly upgrading and optimising the process-driven-asset-delivery-system, the Asset Creation Process, along a with notably refined complexity tool to streamline and safeguard delivery.

Presented by:

Mark Simister is the head of delivery management at **Sydney Water**

2019 Finalist in Innovation

Date:

Tuesday
18 February
2020
